

Nedap AEOS 2020.1 Access Control Integration

Boost your Nedap AEOS Access Control System with Visual AI

Create a safer and better access experience in your facility

Easily integrate Oosto's Touchless Access Control with your existing Nedap AEOS* system and camera infrastructure to utilize Oosto's unique AI technology. The system's intelligent vision capabilities ensure that your facility is safe while easing your building access operations at all times.

Take your Nedap AEOS to the Next Level

1

Rapid and reliable deployment.

Integrate easily, keeping your existing Access Control and hardware infrastructure.

2

Frictionless recognition.

Unlock doors using existing Access Control infrastructure with recognition software that identifies a person instantly.

3

Personnel import and export.

Import all personnel from Nedap AEOS to Oosto.
